The City Government of Wheeling.

The pins are set to rush through Council an ordinance doing away with the Judge of the Municipal Court and conferring on the Mayor the powers and duties of the Judge of the Police Court. The Mayor is then to have a salary of \$1,000 a year. The move is not a bad one in itself,

but we suppose that no one who favors it seriously thinks the present Mayor s suitable person to preside over any kind of court. Certain offenders will think it a queer kind of fate which brings them before Mr. Seabright for nunishment.

The promoters of the movement are not only giving no heed to the personality of the new Judge of the Police Court, but they are not taking into consideration the ordinances with which the new one will come into conflict the new one will come into conflict.
In certain cases, for example, the Mayor and the Judge of the Police Court act together, each office being supposed to be filled by a different personner, and the toes and one side of the supposed to be filled by a different per-

The American Drama,

Here again we have a paraphase of the chapter on the snakes of Ireland. The American drama? There isn't any. This in brief is the opinion of Mr. A. M. Palmer, one of the most intelligent of

American theatrical managers. Discussing the question in the New York Herald, Mr. Palmer says that with the exception of half a dezen persons we have developed no American play-wrights. Those Americans who have

variety of character in its population, without provincial distinctions, without strongly marked classes, without incomplete the community of the statement by Senator German, the wild defined artether in painting, sculpture or music, has little or nothing to be reflected upon the stage. I am awas that in some minor instances our local stage has of late found something fact, and in this fact vertain people at they discover the communecement of a national drama.

There is undoubtedly something in this, how much we are not at once prepared to say. All the same it is well of interest plays for these who have come nearest to the required pitch have respect harvests. Mr. Palmer adds for the encouragement of those who are dispeased to try, that he is at this moment crying out for an American play, for these who have come nearest to the see who are dispeased to try, that he is at this moment crying out for an American play, including the patrons want it, he will pay well for it, and he will feel himself the debtor of the one who will tell him where to go it. Happy Homes.

Here's a health to the wives and the mothers who sit in our households to-day! Who are glad when they brighten for others. The hours that go drilling away. May their cycs keep the light of the gladness, Their hearts hold the fulness of biss. That bankless shadows and sadness, And what need we sak more than this?

But-how can this happiness be kept But—how can this happiness be kept? What shall protect those we love,—those who make a Heaven of the Home,—from the ravages of disease that is often worse than death,—that is, in fact, a lingering death? The question is easily answered: Dr. Pierce's Favorite Prescription—the standard remedy for all of those peculiar diseases to which women are subject,—is what must be relied on to preserve the health of wives and mothers. It prevents those diseases, and it cures them. It is a blessing to women and therefore a national blessing, because it gives health to those about whom the happiness of home centers, and the strength of a nation is in its happy homes.

supposed to be filled by a different person. When the new ordinance goes into effect the old ones should be in a condition to go along consistently with it.

The fact is that not much of great value is to be gained by patching up a thing so defective as Wheeling's present form of government. The whole thing should be made over in the light of the best thought and experience of the day, so that the city may take a fresh start under the best governmental conditions.

Dangerous Use of Strong Purgatives.

Most pills, purgatives and Bitter Water which act quickly upon the bowels, irritate and often destroy the musous coats of the stomach and bowels. Indeed their cathartic action is wrights. Those Americans who have devoted themselves to this work have shown a conspicuous lack of inventive capacity, the more remarkable in view of the mechanical inventive ingenuity which characterizes the American people. This lack Mr. Palmer attributes to want of distinctively American material. On this point he says:

A national drama must be reflective, and, to be reflective, it must have something to reflect. A nation without a series of the second control of the second control to the second control the second control to the second control to the second control the second control to the second control

this aggregate only. \$05,000,000 are on farm property—less than one tenth of the farm mortgages in the Democratic mind.

An interesting fact in this connection, and one which ought to be instructive to the Free Trade Democracy, is that the lightest farm mortgages are in the vicinity of manufacturing cities, the heaviest in farming districts the most remote serve to distract attention from their own shortcomings and their ill-advised action, which may jeopardize the millions of money that the State and city have invested in this road. I shall not now enter into any discussion of the matter, but shall reserve that for a report to the Board of Public Works, who, by the constitution of the State, are charged with the dirty of protecting the State's investments in all works of public improvement."

An answer from Mr. Frick is looked for.

That Tired Feeling
Afflicts nearly every one in the spring.
The system having become accustomed to the bracing air of winter, is weakened by the warm days of the changing season, and readily yields to attacks of disease. Hood's Sarsaparilla is just the medicine needed. It tones and builds up every part of the body, and also expels all impurities from the blood. Try it this season.
